

Commercial Pest Prevention **for Healthcare.**

AUDIT-READY PROTECTION. ZERO-DISRUPTION.

Healthcare facilities operate with zero tolerance for pest activity. Turner Pest Control works with healthcare teams across Florida to proactively manage pest risks and help maintain smooth, well-managed operations.

Our commercial pest management programs are built around early detection, reliable service and discreet support designed around safe, uninterrupted patient care.

A Prevention-First Approach Built **for Healthcare**

IDENTIFY

Facility-specific risk conditions

MONITOR

Sensitive and high-risk areas

PREVENT

Targeted treatment and exclusion

DOCUMENT

Detailed reporting and compliance documentation

Delivering healthcare-focused pest management with consistency, discretion and accountability.

Healthcare-Focused **Commercial Services**

- General pest management
- Fly management
- Stinging insect control
- Termite protection
- Intensive targeted treatment
- Wildlife exclusion and trapping
- Bed bug inspection and treatment
- Rodent control

SMART Rodent Monitoring **for Healthcare Facilities**

Continuous digital monitoring and early detection through a **non-toxic, discreet pest control system designed to protect patient health and support proactive, sustainable prevention.** Powered by SMART technology, including Sense Mini devices for cockroaches and moths, this approach enables faster response, targeted treatment, and real-time visibility into pest activity while reducing reliance on reactive biocide use.

Why Healthcare Facilities **Choose Turner**

- Integrated Pest Management approach (IPM)
- Ongoing monitoring and responsive service
- Audit-ready documentation
- Discreet service for sensitive environments
- Single-site and multi-location support
- Trained and licensed technicians with ongoing industry training

Pest Management Designed Around Patient Care

Built for regulated healthcare environments across Florida.
